

Gramercy Park - Update

August 8, 2008

Bartlett Tree Experts, the company that does the annual pruning of our Gramercy Park trees, were scheduled to come today. They called to tell us they had an emergency and will not be coming today. They are now scheduled to come on Monday (weather permitting) to check the stability of the trees, and to prune the rest of the trees throughout the Park. For your safety, the Park will be closed from 9:00 am until 6:00 pm on Monday, August 11th.

We have now replaced the bluestone on Gramercy Park East, which was badly damaged after a recent automobile accident where a car went through the fence. The fence in that area has now been repaired as well. We will now begin to repair the base under the fence.
